

## A WORD FROM JOHNNO

Hi All,

Sorry for the delay in a newsletter. Better late than never. Our latest robot dairy is going very well. If you are ready for an upgrade robotic milking should be a consideration. As the price cap is minimal and in some case robotic milking will be a more cost effective install. Feel free to discuss with us.

The new bunyip store is going well. We appointed Michael Car as manager in March and even though he is new to the industry, Michael is doing a great job. Below is a write up he did for the local Bunyip newsletter.

Johnno

Hi everyone wanted to introduce myself. My name is Michael Car and I am the new Rural Store Manager here at Bunyip Rural Supplies. We have been open now for around 7 months in the old Blackwoods site in Bunyip on Railway Ave.

We have been working hard to stock up with all variety of supplies that everyone needs for their farms from feeds to fencing. Our showroom is nice and full of a variety of hardware, cleaning products and horse and cattle drenches / wormers and many other great products.

Please come in and check out the store. We have a fantastic drive through area inside, plenty of room to park, come in and have a walk around and see what we have in stock. We carry all the Hygain horse products plus chicken feeds, calf feeds as well as dog and cat foods plus of course we have hay / Lucerne and straw inside as well.

We stock a full range of Gallagher electric fence products as well as fire wood and kindling and swap and go gas bottles for your convenience .

So come by, say hi introduce yourself. If we don't carry something you are after we can probably get it in for you as we have two other stores located in Yarragon and Poowong which carry a full range of products as well.

We will be having an open day in September so keep your eyes open for the date, we will be having sales reps and products on display for you to have a look at. A BBQ will be going during that time so come in grab a snag or 2 have a look around and see what we can help you with.
